

Welcome to the latest round-up of news and events from o-a-sys. It has been an extraordinary year for businesses and we would like to thank all of our clients and suppliers for their continued support as we approach the finish line.

2022 has been another successful year for our software suppliers. Pegasus continues to grow **[Opera 3 SQL SE](#)** and a brand new **[Pegasus CIS](#)** release signals a modern advance in technology for the software. For existing Opera 3 VFP and SQL users, Pegasus are offering a final **10% discount on Opera 3 SQL SE** upgrades for the remainder of 2022. This is important because upgrade prices are increasing from January 2023. Now is the time to take advantage of this special offer!

**EazyStock** continues their UK domination for Inventory Optimisation and **PODFather** are helping even more businesses to digitise their deliveries. If you are using Opera 3, then these are great add-ons to help your business with productivity and automation of manual processes.

In 2023 we continue with the popular XRL training workshops. To ensure everyone has the opportunity to join our training workshops and learn more about the software we have decided to create an additional training series. We need your help to decide which areas of the software to include - please see below for how you can help! The monthly o-a-sys webinars will continue with a new workshop style format to focus on different areas in the software and content for everyone that uses Pegasus. Please join Bruce on the last Thursday of the month to help develop your Opera 3 skills.

On Monday 12th December we are launching **Christmas fun with o-a-sys**, our 2022 Customer Christmas campaign, which is open to everyone. This week long celebration will include a daily email with competitions, quizzes and prizes ending with the annual o-a-sys Christmas Quiz on Friday 16th December. To book your quiz places now see below. Don't miss out.

Congratulations to our latest competition winner **Erika Arthur** from Fresh Service Ltd; you have won an Echo Dot (4th generation) Smart speaker by correctly answering that the next o-a-sys XRL training session was on **27th October 2022**. Your prize will be on the way soon! See below for more competition details.

## THE LATEST NEWS

### We need your help

In a bid to continuously improve the o-a-sys customer service experience, we have decided to run a series of half day workshops in 2023 for Opera 3. This is where we need your help. Tell us what you want to see included in these upcoming workshops.
